

## DANONE PALM OIL SUPPLIERS AND MILL & PLANTATION LIST H2 2022

**Published June 2023**

Danone is committed to eliminating deforestation, conversion and land degradation from its supply chain, and to the principles of no deforestation, no development on peat, and no exploitation of rights of workers, indigenous peoples and local communities (NDPE), and Free, Prior, Informed Consent (FPIC) and land rights of indigenous population and local communities. We signed the New York Declaration on Forests and are a member of the Roundtable on Sustainable Palm Oil (RSPO) and the Palm Oil Innovation Group (POIG). We also support the Consumer Goods Forum (CGF) resolution to achieve zero net deforestation in key commodity sectors, including palm oil.

To push our commitment to tackle deforestation, conversion and land degradation further, Danone issued its Renewed Forest Policy in 2022. Palm oil is one of our Policy's priority commodities, for which we have specific targets and timelines. We thus commit to source 100% RSPO Segregated (SG) or Independent Smallholder Credits for all our palm oil use by 2025, to reach 100% traceability from plantation level by 2023, and to engage our suppliers to match our commitments by 2025. We already have put in place a traceability system allowing us to map our supply chain each year, with the support of Earthworm Foundation. Danone has also put in place a grievance process, designed with the support of Earthworm Foundation, to enhance transparency and its capacity to act.

Recognizing that transparency is important to making tangible progress on responsible palm oil, Danone is publishing the results of our mapping exercise for H2 2022. The updated mapping shows we have 100% traceability to mill (TTM; in part A below). Danone also has 99,9% overall traceability to plantation (TTP, in part B below starting on page 14) score based on direct suppliers scores for total volumes sourced. The direct suppliers scores are specific to the respective facilities/supply chain from which Danone is buying.

In 2022, Danone purchased a total of 69,140 K tons of palm oil and palm oil derivatives worldwide (67,5k tons in 2021). On full year basis, Danone achieved 88% RSPO SG and 9% RSPO MB. The remaining 3% conventional is sourced in Africa. For more details, please see the Danone Forest Update:
